ADC MAP DATA and SOFTWARE PRODUCTS

- Georeferenced .tif files

- ADC Grid

- ADC Index/Gazetteer included
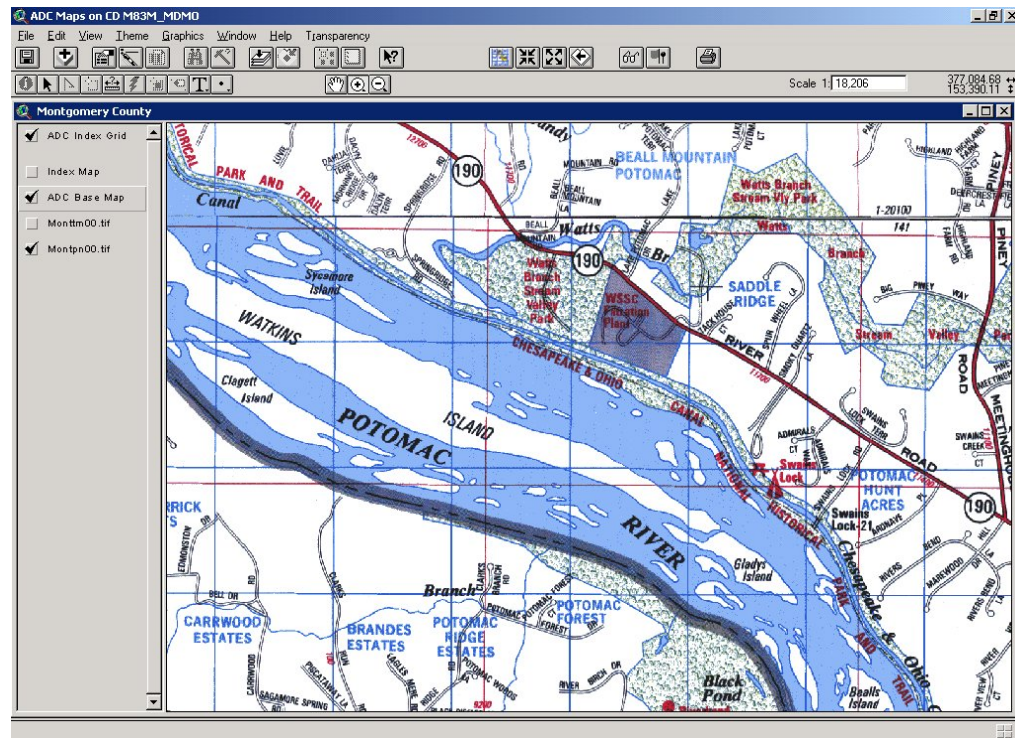

FEATURES AND BENEFITS

- Perform location lookups quickly with "point and click" map indices
- Direct "zoom" takes users quickly from any street address or point of interest directly to map destination
- Includes street locations, schools, hospitals, churches, points of interest, parks, locator grids, and more
- Offers flexibility of printing maps in any size, shape, and scale
- Maps registered to ADC's standard grid and also to MD State Plane Coordinate System enabling precise image positioning and reference points that correlate locations to a variety of mapping overlays
- Enables concurrent usage of ADC maps with data such as surveys, property lines, tax assessments, flood plains, population data, delivery routes, sales regions, etc.

HOW CAN YOU USE ADC DIGITAL DATA?

- Power users
  - GIS specialists
- Casual users
  - Computer users who frequently use ADC map data but who are not GIS specialists
- Special users
  - Companies that deliver products or send their employees to a particular address (dispatchers)
- General public
  - People who want to use ADC map data with their home computer

POWER USERS

- Use ArcGIS or ArcView (Environmental Systems Research Institute)
- ADC Digital Maps using ArcView provide for background transparency so that you can view ADC maps overlaid on other digital geospatial data
- Works with MdPropertyView Data (Maryland Department of Planning)
- Transparency tool included – turn off background colors etc.

Software for SPECIAL USERS

- Tools for dispatchers
  - **Grid Look-up Basic**
    - **Locate an address and identify the ADC map book page and grid**
    - **Store addresses in a database along with the grid, add descriptions, mark as complete/delivered, and re-order list**
  - **Grid Look-up Advanced**
    - **All Basic functions plus the ability to find the ADC map book page and grid for items in ADC's index (gazetteer)**
    - **Basic and Advanced versions only require a license for ADC Grid files**
  - **Grid Look-up Pro**
    - **All Advanced functions plus the addition of the ADC map with selected addresses**
    - **Requires a full ADC Maps on CD license**

GRID LOOK-UP BASIC

• **Enter address and software will return the ADC atlas, page, column and row and add result to the list**

• **Enter descriptions to the result on the list**

• **Mark as complete as in a delivery has been completed**

• **Resort the list**

• **Save the list for repeat deliveries**

• **Requires ADC Grid file license - $100 per atlas**

•**All the features of ADC Grid Look-up BASIC plus look-up by the ADC index to find the resulting atlas, page, column and row**

•**Requires ADC Grid file license - $100 per atlas**

GRID LOOK-UP PRO

•All the capabilities of ADC Grid Look-up BASIC and ADVANCED plus now right click on list results and show map and the ADC Grid Look-up PRO software will display the result on the ADC map in the window

•Print maps

•Save results

•Requires ADC Maps on CD license - $250 per atlas for single user

"ADC Grid Look-up" PRO has the ability to:

Look up addresses and return the matching ADC Atlas page and grid. Add results to the list, add descriptions, manipulate the list, and mark items in the list as completed, like "ADC Grid look-up" BASIC

Look up Features from the Index in the back of the ADC Atlas and return the matching grid, like "ADC Grid Look-up" ADVANCED.

"ADC Grid Look-up" PRO also has the ability to show, print and mark the address on the ADC Map. "ADC Maps on CD" License required.

The User can click on items on the list and the map view will automatically zoom to the address on the list.
