

ADC's popular and easy-to-use street maps are now available on CD with powerful new, timesaving features! Online "point and click" and direct "zoom" features give fast access to map locations, saving staff time and effort. Specially designed features for engineers, dispatchers, urban planners, realtors, statisticians, surveyors, assessors, sales offices, and service organizations.

ADC Maps have long been used by state agencies, county governments, municipalities, professional service contractors, educational institutions, and libraries.

ADC Maps on CD are enhanced with powerful new features to increase service, productivity and accuracy, deliver faster more robust solutions, improve client mapping services, and decrease travel time to destinations.

## County Government License...

For an annual license fee of \$7,995, one ADC map can be used for all county government departments. Individual departments such as fire, police, dpw, and schools will no longer have to purchase individual licenses.
